What our customers say

“After considerable time spent researching Tego and comparing it against other insurers, I found that Tego had actually listened to what doctors had been saying for years. The coverage was fantastic. Everyone is cautious, and so was I. I spent time reviewing the policy and talking to other doctors and the feedback was consistently positive and reassuring. And when I realised that the pricing was extremely competitive, I was even happier. Quality first, price second. But why not have both? Thanks Tego, very happy with the time spent alleviating my concerns.”
